

PIPELINE CONFIGURATION – BY BRANCH OR TAG

```
image: node:7.9.0

pipelines:
  branches:
    master:
      - step:
          script:
            - npm install istanbul@1.1.0-alpha.1 mocha eslint-plugin-import eslint-config-airbnb-
base eslint -g
            - npm install
            - npm run test
  tags:
    release-*:
      - step:
          script:
            - npm install istanbul@1.1.0-alpha.1 mocha eslint-plugin-import eslint-config-airbnb-
base eslint -g
            - npm install
            - npm run test
```

TEXT

PIPELINE IN ACTIONS

The screenshot displays the Azure Pipelines interface for a repository named 'Trung Dang / test-ci-cd'. The left sidebar contains navigation icons, with the 'Pipelines' icon highlighted by a red box and an arrow pointing to the text '1. Click here'. The main area shows a table of pipelines. The first pipeline, 'update pipeline' by 'Trung Dang', is in the 'In progress' status, indicated by a blue circle with an 'i' and the text 'In progress'. A red arrow points from the text '2. To see in detail, click here' to the pipeline name. Another red arrow points from the text 'Current status' to the 'In progress' status text. The table has columns for 'Pipeline', 'Status', 'Started', and 'Duration'. The 'Started' column shows 'a few seconds ago' and the 'Duration' column shows '..'. The left sidebar also shows 'All branches' and 'master' as the 'MAIN BRANCH'.
